Class: 2C

Topic: A Picnic Day

### **A School Trip with a Dog**

It was a sunny morning when my class and I went on a school trip to a local park. When we arrived, many of my classmates began to play. Some flew kites while my friends and I laughed and chatted.

While we were exploring the park, we saw a dog stuck at the top of a tree! Everyone was calling for the dog to come down, but it was much too high for him. There was a ladder nearby, so I decided to grab it and place it against the tree. My friend gained the courage to climb up and rescue the dog. She grabbed him and placed him carefully on the ground. Everyone was relieved that the dog was safe and no one was injured.

By the time the rescue was over, it was already lunchtime. Therefore, my friends and I brought the dog with us to our picnic. Since the dog was now safe, everyone enjoyed themselves, and we even shared some of our snacks with him.

At the end of the day, we decided to take the dog to a local animal shelter near the park. We will miss the dog, but it was the right thing to do. Then, we boarded the school bus and left the park. What an adventurous day!
