

Dear Alex,

How are you? How is your life in Australia? You know we haven't contacted each other for 1 month already because I was working on my music video. I have uploaded the MP4 file in the description below and you can download it and appreciate it. You may comment on it if you have any suggestions. You might think, why did I take a long time to make this music video? If you were here, you would know about my feelings...

The video is about shopping to raise money for charity. When I saw this kind of content, I was shocked. Have you ever heard that shopping can raise money for charity? Even when I asked my classmates, they didn't know either. Maybe our horizons are too narrow. But after searching the internet, such an idea really exists. It's just like if you buy a product, the company will raise money and donate to charity.

This was still not the hardest part. The most difficult concern was the lyrics. I spent about a week in this section. Do you know why? Because I have to make it entertaining and interesting in order to promote that fundraising shopping is effective. I tried to utilize the objective of fundraising to reform a sentence. However, some words were difficult to replace. It made the whole lyrics lack fun. I tried to use artificial intelligence too, but still, it had the same problem. Then I mixed them up, and accidentally created an 'acceptable' lyrics.

After everything was prepared, we finally started our filming. If you think the whole filming procedure can be done smoothly, you're wrong. Some of my classmates told me that they had something to do, like sports training, tutorials, etc, and eventually kept postponing the filming time. After we had done it, 2 weeks had already passed.

There're too many ups and downs during the whole process. Even though I wanted to make it more perfect, I had no more ideas to add to it. Besides that, I didn't have much time to spend on it. Alright, that's all I want to say. If you're free, come to visit Hong Kong. See you!

Best regards,  
Nicky
